

EE 2240: Electrical and Electronic Circuit Simulation Laboratory

Credit- 1.5

Course Teachers: Dr. Md. Jahirul Islam

&

Dr. Md. Tawabur Rahman

Course Information Outline

- ❑ **TOPIC 1:** Introduction to Electronic Circuit Simulation and Software Packages
- ❑ **TOPIC 2: Circuit Simulation with PSPICE**
- ❑ **TOPIC 3:** Circuit Simulation with PROTEUS
- ❑ **TOPIC 4:** Introduction to MATLAB and Circuit Simulation with MATLAB

Practice-3.1: DC Power Supply

Practice-3.2: User Defined Source

- For the parallel RLC circuit shown, plot the voltages at points 1 and 2 when the user-defined input as given is applied.

Practice-3.3: CE VDB Amplifier Circuit

Practice-3.4: OP-amp Amplifier Circuit
